## Are you aged 16-23 with acne, eczema or psoriasis?

**The BRISC Study at the University of Manchester is investigating how young people cope with having a skin condition and what support they need from the skin clinic.**

## Would you like to tell us about your experiences and help shape how we help support people like you?

The study involves one interview lasting approximately an hour. We will arrange to see you at a convenient time and place and can come to your home. If you want to come to us we will pay your travelling expenses.

If you think you would like to take part or would like some more information then please ask your Dermatology Consultant or Nurse.
